

Need to Let Go

Jim Kincaid Corrigan

It comes in like a flood
And shoves off just the same
 Never a warning
 With no one to blame
And not even time can offer a remedy
 Like a knife through my heart
 A kiss to my face
 Is your memory
 Then I saw a face
 And I swear it was you
 And I miss you so much
 Hey can you hear me?
 I need you to know
That if it's all right with you
 I just need to let go
?Cause time waits for no one
 And life carries on
 And I'll never forget you
 I just need to let go
 I just need to let go
And you'll never find mercy
 In the cycle of life
 You can't bend the rules
 ?Cause everyone dies
When my boy looks at me

Like I looked at you
I'll be king of the world
If he loves me half as much as I loved you
 Then I saw a face
 And I swear it was you
 And I miss you so much
 Hey can you hear me?
 I need you to know
That if it's all right with you
 I just need to let go
?Cause time waits for no one
 And life carries on
 And I'll never forget you

I just need to let go
I just need to let go
Hey can you hear me?
I need you to know
That if it's all right with you
I just need to let go
?Cause time waits for no one
And life carries on
And I'll never forget you
I just need to let go
I just need to let go
