

# Carini

## Phish

I saw you with Carini and a naked dude  
I couldn't eat my food  
Lucy had a lumpy head  
Lucy took a walk, now Lucy's dead  
You told me of a secret place  
I saw it when I met you, the warrants on your face

Akilla scared the shit out of the ram

The thesis that you're writing is a load of shit  
But I'm glad you finally finished it  
He went across the street and he called his dad  
Now you'll never get the raise you thought you had  
People always screaming when they saw the lump  
Everyone was screaming when they saw the lump

Akilla scared the shit out of the ram

Carini had a lumpy head
