

# Changing

Amy Cook

We are flying past the redwoods  
Down the 101 with the golden sun  
Past the ocean and the embers  
Will you remember me in the California weeds?

If it's time for changing I don't mind  
Honey everything's changing all the time

Can I walk you home it's a cool night?  
But do you want to go somewhere I can't follow?  
Through the spring fears and decembers  
Will you remember me when my gold turns to green?

If it's time for changing I don't mind  
Honey everything's changing all the time

Let's go fly across the ocean  
We'll go on a run with the silver sun  
I been bent but I'll never break  
It's too hard to fake, then we will stay the same

If it's time for changing I don't mind  
Honey everything's changing all the time

If it's time for changing that's just fine  
Honey everything's changing all the time

All the time  
All the time  
All the time

---
