

# Born In the Cold (feat. Andreena Mill)

Wiley

I was born in the cold, it's not make belief  
I hit the ice like a maple leaf  
I can't spit if I don't rate the beat  
Don't push cause you gonna make me hate the beat  
My cousin got iPhones and silver cheapestry  
Raised me, now I'm gonna raise the street  
My mind might flip, going stray for weeks  
I went to look for it then it came to me  
When I was young I never had to pray for trees  
Slush puppy get flopped brain for freeze  
Yes, the game changed, I changed the greaze  
Caused the blizzard anywhere I take my feet  
But let me take you to a place where I chase my P's  
London, the place where I grate my cheese  
And if you can't hustle you won't last there  
I seen people crumble in a half year  
Swear I like when I see the youth doing good things  
Cause I want them to know what doing good brings  
I've been there myself and now I'm gonna help you  
You don't want what the hood brings  
Look away from it, looks good but please don't play with it  
My advice, I'm a vice got me looking for the cold  
And I don't know if I'll ever go I'ma head to the sky  
Cause I be on that  
High, high, high  
I was born in the cold, snow falling  
Way before snowboarding  
I swear winter could hear me calling  
I still had a good heart even when I went balling  
Life's like a game of snakes and ladders  
Ups and downs, everybody rushing around  
But I'm loving the sound of it, keeps me going  
Yeah, keeps me flowing  
I got the drive that will drive all around the world  
And spread the word, get people knowing  
I come alive anywhere in the Earth  
Can't lie, the fan base is growing  
Quite noble, recording that noble  
Feel like a local always searching for the perfect vocal

Do people size, we using pro-tools  
My scene need this 'cause we breathe this  
Natural talent, can't say you got it if you haven't  
I like to be diverse and keep a good balance  
They know I work hard for it  
I'm gonna be the next star of it  
Free spirit in music, I'm a free spirit  
And my lyric can prove it  
I'm always chilling or cruising
