

All About Love

Earth, Wind & Fire

We know it's been time, talking to you
So we figure we lay it on you
Let you know how we feel about, lovePaint a pretty smile, each day
Lovin, is a blessin'
Never let it fade away
It's all about loveBuild yourself a true romance
Beauty that surround you
You deserve, just one more chance
My dear, my dearLet the light shine, all through your mind
Built your little heart, a glow
Take the time, make up your mind
It's all about loveTalking to yourself is fine
Makes you feel, much better
Know just where to draw the line
My dear, my dearLet the light shine, all through your mind
Feel your little heart, aglow
Take the time, make up your mind
It's all about loveTalking to yourself is fine
Makes you feel, much better
Know just where to draw the line
My dear, my dearBound to fall in love one day
Surely and you need it,
Pretty smile will always say

"My dear" We want to take this moment to run down a couple of things about things we see everyday...Now, I
want you to stop!

Whatever you're doin', just stop!

Cause I want to rap to you.

You know, they say

"There's beauty in the eyes of the beholder"; You know

Which I say is a natural fact

'Because you are, as beautiful as your thoughts, right on! You know like, what else for instance, you know like
we study

All kind of cult sciences... astrology an' mysticism an' world religion

So forth you dig

And like ah, coming from a hip place

All these things help

Because they give you an insight to your inner self

Have mercy! Now there's a outer self we gotta deal with; ya know

The one that likes to go to parties

One that likes to dress up
Be cool, look pretty, on ego trips and all thisAnd so um hey y'all
I'm trying to tell you, you gotta love you
Gotta love all the beautiful things around you, trees and birds
And if there ain't no beauty
You got to make some beauty, have mercy!
Listen to me, yeah!Feeling you had
Feeling
Talking about beauty
I want the feeling
Can't make you feel
I want the feeling
Gonna make you believe
Feeling
Feeling
