# Done

## Micall Parknsun

I wanna let you know while I'm still standing here
I'm not hopeless but I can't forget about it
No matter where I go I'm gonna take it
You're never gonna see me lost or lonely
There are so many things I'll never get to say
But I know you don't care, I think you can live without it?
I bruise so easily but it comes back to me
Remembering the words of what you told me
Thinking you could actually control me
You took what you needed, I am still breathin'
I am still feelin' the warmth of the sun
I'm not gonna fade away this time
And you know I gotta tell you when you do what ya do, I'm not done
You made me stronger than, than I'm supposed to be
My heart is a light thats dependent on me
You're such a no-where man who'd never understand
And from the very moment that you hurt me
I realize you really don't deserve me you
You took what you needed, I am still breathin'
I am still feelin' the warmth of the sun

I'm not gonna fade away this time
And you know I gotta tell you when you do what ya do, I'm not done
What you call love is something else
If you just want it for yourself
Remembering the words of what you told me
And thinking you could actually control me you
You took what you needed, I am still breathin'
I am still feelin' the warmth of the sun
I'm not gonna fade away this time
And you know I gotta tell you when you do what ya do
Oh you took what you needed, I am still breathin'
I am still feelin' the warmth of the sun
I'm not gonna fade away this time
And you know I gotta tell you when you do what ya do
Oh you know I gotta tell you when you do what ya do
Oh you know I gotta tell you when you do what ya do
I'm not done, oh no, no
'Cuz I still feel the warmth of the sun
