You'd Stick Out

PJ Farley

You'd Stick Out

if you re a strand
within the wave
of my emotion
id feel you push your way up to the surface
if you re a grain of sand aside the ocean
id find you there id see you shining thoutgh

becouse You'd Stick Out
in a way that no one else can
yeah You'd Stick Out
theres no way that i could lose you
You'd Stick Out

in a photograph you show
in three dimensions
color or black and white
your image never fade away
and the stars up in the sky
dont have a thing on you tonight
couse the light from your eyes
rivalany constellation

becouse You'd Stick Out
in a way that no one else can
yeah You'd Stick Out
theres no way that i could lose you
You'd Stick Out

its the way you smile that gives you away
and the sound of the words that you say
all of my life i knew you were out there
now that i found you i cant be without you
couse You'd Stick Out
