Disgrace

Nasum

While the masses are praying
The priests are collecting
This repulsive behavior
Disgrace for the human raceReligion causes suppression
On those who are are feeble minded
And for you in need of belief
I say, start believing in yourselfWhile the masses are in confession
For a non existing god
Another rape is committed
The victim bares the crossReligion causes suppression
On those who are are feeble minded
And for you in need of belief
I say, start believing in yourself
