

# Wandering

## Hungry Lucy

You always said you'd rescue me someday  
Did you forget or did you just not care  
I was afraid to run away alone  
Now I can see you'd only make things worse  
Its only me  
I'm wandering  
I'm on my own now  
I have to leave  
I have to know  
I have to try  
Why are you still inside my heart these days  
I was OK until I thought of you  
All of the disappointing things you've done  
Come in my mind and take away my love  
I have to be just wandering  
I want to hate you  
I want to see my light inside start to glow  
You'll never know  
You'll never be  
Part of my life  
I'll be OK  
I will be fine  
I'll always be just wandering with my shadow  
No light inside  
The love has died  
Because of you  
I can't go on  
I lost it all  
There's nothing here  
But pain and fear  
You'll never know  
You'll never know  
You'll never know
