

# Live My Life (leave Me Alone)

Cam'ron

Yo, as soon as I get here niggaz wanna wrap the roc up  
Nah, backslash wrap the rocks up, back the block up  
Cop killers, clap at coppers, blast at choppers  
Pass the vodka, listen, don't ever mention Dash or Hoffa  
It's a Harlem thing dog, you'll clash with Mobsters  
Remember me? Got jumped on TNT  
Next week, back pump TNT  
All my niggaz got M-16's kid  
And all we do is watch MTV Crips  
Learn not to in fury the victim  
Purially stick 'em, break through your security system, killa  
Stop frontin', you was never a menace  
Never a hustla, no, we could never do business  
Business is business, money is money  
Hustle is hustle, stupid is stupid  
You da dumbest of dummies, killa  
Leave me alone, let me just live my live  
Just leave me alone, leave me alone  
Let me just live my life  
That's the sound of the police  
All I do every day dog, blunt after blunt  
Stunt after stunt, they all [Incomprehensible] after [Incomprehensible]  
Like that I'm Shiesty, look at my shoes, like my Nikes  
Know that I got a girl, like my wifey, like that I'm rude  
Come here, let me pick with your chest, dick on your breast  
All they say, "That nigga's a mess"  
You heard me fam? All worthy of this dirty man  
Take it in your ass? How about 30 grams ma'?  
Go upstate, come back downstate, next time around me  
You might get a pound cake  
Fuck it up, she understand that I might slap her  
I'll me damned if I work for some white cracker  
White batter, prize in the pack, fiends love  
They hug it, call it Cracker Jacks, killa  
Where the crack is at, watch me get dem dice  
Throw 'em on, let me live my life, killa  
Leave me alone, let me just live my live  
Just leave me alone, leave me alone  
Let me just live my life

That's the sound of the police  
Fuck life as a rap star, you dealing with crack gods  
Cookin' the crack hard, lead the crack jars  
All of the chips, the crib with the backyard  
Pull out the gat pa, a block, and black cars  
And I'm scary with the 5th, compare me to a gift  
Yellow diamonds, ganerrie on my wrist, just juice  
Get wet up and waive, that'll be the day, killa cam  
Mess up some yeah, shit  
Thug niggaz be on point and game time  
Cop a brick, and re-up in the same night  
And to get that trife, I flick that knife  
Doggy Dog, let me live my life  
Leave me alone, let me just live my live  
Just leave me alone, leave me alone  
Let me just live my life  
That's the sound of the police  
The block is hot, niggaz tell me to feel it  
Know when I get out they gon' feel it  
Witness the realest  
Killa, killa
