

Nikki, I've Been There Too

Abraham Cloud

Nikki I've Been There Too
When you feel like you don't belong
And everything you've ever done is wrong
Nothing here makes
much sense at all
Give me a call, it's true
Nikki, I've been there too
When you're hiding all alone in your place
Trying to wipe the night off your face
Wish you'd never said what you feel
Feelings are real things too
Nikki, I've been there too
Counting up your change
Ready to change everything today
Hop on a bus,
for a new place to start again
Nikki, we've been there too
Remember not to take it too hard
Tomorrow it's a joke at the bar
We'll be drinking sweet memories
Long Island Ice Teas for two
Nikki, I've been there too
And it's getting every day
Ya we're getting better every day
Nikki, I've been there too
and I'll always be there for you
Nikki, I've been there too.
