Make Love

Uniting Nations

Let's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby get up now, turn your look aroundWe're holding up right now
It makes you feel somehow
We'll be together forever there's no doubt
Holding up right now, it makes you feel somehowJust making love, we're making love
Just making love, we're making loveLet's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look aroundJust making love, we're making love
Just making love, we're making loveBaby, get up now
Turn your look aroundLet's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look aroundLet's make love, come on and celebrate
One more time and the stars will shine
Let's make love, come on and celebrate
Baby, get up now, turn your look around
