

# Make Love

## Uniting Nations

Let's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby get up now, turn your look aroundWe're holding up right now  
It makes you feel somehow  
We'll be together forever there's no doubt  
Holding up right now, it makes you feel somehowJust making love, we're making love  
Just making love, we're making loveLet's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look aroundJust making love, we're making love  
Just making love, we're making loveBaby, get up now  
Turn your look aroundLet's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look aroundLet's make love, come on and celebrate  
One more time and the stars will shine  
Let's make love, come on and celebrate  
Baby, get up now, turn your look around
