## Hajimemashite

## **LinQ**

I didn't know things were supposed to be this way

I wasn't told of this before

But had I known about this fall for some time

Maybe I could've been or could've known

I once was dropped among this crowdI didn't know things were supposed to be this way

I wasn't told of this before, it's all right

Was all I heard, it will blow away, away

When it's faded from my mind

Gone, without this time, it's fading fast
