

Erroneous Escape Into Eric Eckless

of Montreal

The octopus in your purse
Is cursing like an evil sailor
But remember the knife is worse
For the additives of movie trailers If you want me to Ill help
Its all the same to me
Just tell me if you want me too If you keep killing god in your eye
People will think youre really careless
But no matter how hard you try
Youll never be weird as Uncle Alice And if you want me to Ill help
Its all the same to me
Just tell me if you want me too Im not upset just confused
And so tired
I cant relate to this world
Im not bored enough
Watch after me
Music will complete the change in you Just sing this in brail
You had to be haunted by black freckles
And if you color dream in pale
You can always talk to Eric Eckless If you want me to Ill help
Its all the same to me
Just tell me if you want me too
If you want me tooo
