

# Only Superstition

Coldplay

The cardboard head I see  
Has found its way to me  
Its out and its out and its out  
Making me cry  
I sleep but I will not move  
I'm too scared to leave my room  
But I won't be defeated, oh no[Chorus:]  
What if cards don't go my way  
And its sure to spoil my day?  
But in voices loud and clear you say to me;  
"Its only superstition  
Its only your imagination  
Its only all the things that you fear  
And the things from which you can't escape"Keep clean for the thousandth time  
Stand still and wait in line  
Some numbers are better than others  
Oh no[Chorus]And its making me cry, and its making me cry  
And I'm slipping away, I'm slipping awayIts only superstition, only your imagination  
And its only superstition, only superstition.
