

Cosmic Perspective

Mndsgn

All along you thought you belong
You'd have thought after coming from so far
That you could find a place that can call home
But you still can't find the right wayStill searching for the right way
You might need aCosmic Perspective
For the misdirected
A Cosmic Perspective
Let's get redirected
To the land of music
Find yourself
In the land of music
Find yourself
In the land of music
OooooohAll along you thought this was the truth
Accepted this life without proof
Somewhere along the lines
You lost your waySomehow, someway
You need to find a new directionStill navigating through
To find the right way
You might need aCosmic Perspective
For the misdirected
A Cosmic Perspective
Let's get redirected
To the land of music
Find yourself
In the land of music
Find yourself
In the land of music
Ooooooh
