

# I Can Give You Everything

## Wet Wet Wet

C'mon, hurry won't you hurry  
I said hurry won't you hurry  
Hurry won't you hurry  
Light my eyes with your smile  
Cross my palm with your thought  
For the hand that meets the eye  
Brings you closer to my mind  
'Cos in one crowded hour  
You plan to make all the moments (plan to make the moments)  
All the moments  
All the moments  
Last a lifetime  
I can give you everything, that I want  
Oh I can give you everything, that I want  
Yes I can, yes I can, yes I wanna  
I'm gonna give my love for you  
All alone the heat of the night  
Say come on let's be strong  
Kindle my soul  
For you are my p-p-pride and joy  
For it is precious  
For it is precious  
Sing rejoice, sing rejoice  
For it brings us good tidings  
Oh I can give you everything, that I want to give  
I can give you everything,  
I can give you everything, (that I want to give)  
Baby I can give you everything  
Washed up and dirty  
  
I had no place to go  
Washed up and dirty  
I had no place to go  
Washed up and dirty  
I had no place to go  
I had no place to go  
I can give you everything  
Baby I can give you everything (oh babe)  
I can give you everything

Baby I can give you everything  
I can give you everything  
Baby I can give you everything  
I can give you everything  
I can give you everything  
Baby I can give you everything  
EVERYTHING!  
EVERYTHING!  
I can give you everything  
I can give you everything  
I can give you everything  
I can give you everything  
Come on with your everything  
Come on with your everything  
Come on with your everything  
Come on with your everything  
I can give you everything  
I can give you everything  
Baby I can give you everything
