

# Fire In My Eyes

## Fireflight

Feeling solid 'cause I have finally  
Got my feet on the ground now  
You rescued me with gravity  
I was upside down, down  
I've got a fire in my eyes  
I'm burning brighter than the sunlight  
You orchestrated my escape, now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes  
Used to live my life locked up  
Inside a room with no doors before  
You found a window, You broke it  
And now I won't be contained anymore  
I've got a fire in my eyes

I'm burning brighter than the sunlight  
You orchestrated my escape, now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes  
Oh, I know You are  
The reason I can breathe  
Oh, I know You are  
The reason I am free  
I've got a fire in my eyes  
I'm burning brighter than the sunlight  
You orchestrated my escape, now I'm awake  
I feel alive for the first time  
You ignite the fire in my eyes
