

Lies

The Beautiful Bodies

Were taking off, off, off to the dark side
Gonna grab my bow and arrow
I'm never, never gonna be your white bride
Shoot you down like a wounded sparrow
Lies, Lies, Lies, Lies, Lies
Lies, Lies, Lies, Lies, Lies
You've made off, off, off like a bandit
But the heist has quickly gone awry
And the spoils have been soiled by your habits
Not another girl in your game of lies
Baby, traitors burn alive
And you'll never make it
Only one survives
In this game of
Lies, Lies, Lies, Lies, Lies
'Cause I can see them in your eyes
Lies, Lies, Lies, Lies, Lies
And loving you is suicide
We're headed out, out, out from the shadows
Gonna purge you from your feeble
thrown
Prep the town for the sound of the gallows
'Cause the bastards surely will atone
I hear your voice
But it's only making noise
Hear your voice
But it's only making noise
Baby, traitors burn alive
And you'll never make it
Only one survives
In this game of
Lies, Lies, Lies, Lies, Lies
'Cause I can see them in your eyes
Lies, Lies, Lies, Lies, Lies
And loving you is suicide
Baby, traitors burn alive
And you'll never make it
'Cause this is the last time
That I'm ever gonna take it
Time to say goodbye
'Cause you're overrated
Only one survives
In this game of lies
