## The Bright Light Social Hour

I need your love  
I need your love  
I know that I'm leaving  
But I want you to know  
Ain't no other way.The day that I met you  
Workin' side by side  
At that moment I knew I'd work for you  
'Til the day I died.  
Didn't notice the rain  
Didn't notice the cold  
Didn't notice a damn thing baby  
We just let our love unfold.I need your love  
I need your love  
I know that I'm leaving  
But I want you to know  
Ain't no other way.Friday morning I went in  
With a weight on my soul  
I swear I tried to fight, baby, but I  
Won't be back no more.  
Pretty baby I know  
Told you I'd never leave  
But I swear that I gotta go  
If we're gonna make ends meet.
