# Worthless

## Chimaira

Did you ever realize
That your way of life
Is effecting all around you
Bottom feeding ignorant
You make me fucking sick
Did you ever realize
That everyone you know
Can't fucking stand you
Acting like you know everything
When you don't even have a clue

You're worthless
Worthless

I can't fucking believe
You never realized
That your way of life
Revolves around theft and greed
Every week a new identity
Yet still an asshole to me
Did you ever realize
No matter how hard you try
You'll never make a difference
Just keep on fucking pretending
That you're our savior

Worthless

Nobody cares if you die
Worthless
You are fucking worthless
