

Just a Memory

The Mavericks

Memory, can't you see
That's not what I should be
After all she meant to me
I'm just a memory Hand in hand we used to walk
Heart to heart we used to talk
Now she's gone and it will be
I'm just a memory Memory, can't you see
That's not what I should be
After all she meant to me
I'm just a memory Yesterday, when she was mine
There have been no better times
And every night I think of when
She'll come back again Memory, can't you see
That's not what I should be
After all she meant to me
I'm just a memory After all she meant to me
I'm just a memory
