As One

abingdon boys school

Don't you get this reality
You're losing what is right, what used to be
Don't hide your curiosity, the thing's hard to find
I know it's in you and meOur life is going on
Like the river flows to the ocean
We just keep moving on
Like the wind blows, together, being as oneYou're reaching the destiny
Now you can see the light, what's meant to be
You're getting the eternity, beyond day and night
You know it's just you and meOur love is growing strong
Like the rain falls to the dry ground
We must keep going on
Like the rainbow, forever, being as oneWhenever you just call my name
No need to care, I will be there
Anytime we can feel each other
Yes, we are, not aloneOur life is going on
Like the river flows to the ocean
We just keep moving on
Like the wind blows, togetherOur love is growing strong
Like the rain falls to the dry ground
We must keep going on
Like the rainbow, forever, being as one
