

Walk Through the Fire

Consumed by Fire

I open my eyes
I see it clear
And when I open my eyes
Who should I fear?
'Cause the nights are getting brighter
And the days are getting shorterIf it all goes away
You'll still be here
If it all goes up in flames
You'll still be here
So I'm not afraid to walk through the fire with you
I'm not afraid to walk through the fire with youLook up with your eyes
Redemption's near
Oh, haven't you realized
That all the signs are clear?
'Cause the nights are getting brighter
And the days are getting shorterIf it all goes away
You'll still be here
If it all goes up in flames
You'll still be here
So I'm not afraid to walk through the fire with you
No, I'm not afraid to walk through the fire with youI'm not afraid to walk through the fire with you
No, I'm not afraid to walk through the fire with you
If it all goes awayIf it all goes away
You'll still be here
If it all goes up in flames
You'll still be here
So I'm not afraid to walk through the fire with you (walk through the fire)
No, I'm not afraid to walk through the fire with you (walk through the fire)
To walk through the fire with you
