Kill and Run

Sia

Watching the sequence of sounds
Coming out of your mouth
But the snore is too loud
Follow the hands as they move
Try to make out your move
But my brain doesn't want to
Silent call for you
What have I done to youKill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run
A bullet through your heartInterpret the eyes as they die
Should i cry should I love
Your poor lashes blow
Victim of sensory love
You cry over my
An innocent callSilent call for you
What have I done to you
Kill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run
A bullet through your heartKill and run, kill and run
I'm one of the dirty guns
Kill and run, kill and run
A bullet through your heart
