

# Heaven Can You Imagine

## The Rochesters

1st There's a land that I've heard of and read about  
A land where there comes no night  
My mind can not comprehend this forever that has no end  
A city where the soul never dies

Chorus

Heaven can you imagine It's beauty can't be described. Heaven tell me can you imagine. It's my home on  
other side

2nd

I've seen many mansions by the road  
And my how they glimmer and shine  
But none of them can compare  
To my home God has prepared  
And someday it will be mine

3rd

All my loved ones wait for me just inside the gate  
It's beauty can't be described  
But best of all we will see  
The one who died so willingly  
Yes Jesus who took my place
