

# All Because Of You

Bosson

It's all because of you  
It's all because of you  
Nobody else makes me feel like you do  
I have the time of my life  
And it's all because of you  
If I was able to thank you  
For coming into my life  
If I was able to tell the whole world  
How I feel, my love is for real  
If I was able to write a song  
I would have filled it with love  
If I was able to open my heart  
You would see I'm so happy  
It's all because of you, yeah you  
It's all because of you  
Nobody else makes me feel like you do  
I have the time of my life  
And it's all because of you  
If I was able to live my life over again  
I'd share the minutes with you  
If I was able to count the times  
You bring out the sun when I'm feeling down  
If I was able to explain  
How you have opened my eyes  
I sure have tried about thousand times  
I just feel so alive  
It's all because of you, yeah you  
It's all because of you  
Nobody else makes me feel like you do  
I have the time of my life  
And it's all because of you  
It's all because of you, yeah you  
It's all because of you  
Nobody else makes me feel like you do  
I have the time of my life  
And it's all because of you  
I found the meaning, I cherish my life  
Now I see everything in colors so bright  
And when it's raining, I still feel the sun

So take a good look, I'm walking on clouds

It's all because of you

It's all because of you, yeah you

It's all because of you

Nobody else makes me feel like you do

I have the time of my life

And it's all because of you

It's all because of you, yeah you

It's all because of you

Nobody else makes me feel like you do

I have the time of my life

And it's all because of you

Yes, it's all because of you
