

# Miserable

## Tokyo Police Club

I wanna travel to the future again,  
I wanna travel to the future  
I wanna travel to the future again I heard about it from a friend of a friend  
I heard about it from a friend of a friend Are you miserable?  
Well, I am totally blinded by the sun in my eyes  
Are you miserable?  
And I feel I'm the only one who gets this way sometimes  
Are you miserable? Do you get miserable? (x2) I wanna live in the Bahamas, uh huh  
I wanna live in the Bahamas with ya I heard about it from a friend of a friend  
I heard about it from a friend of a friend Are you miserable?  
Well, I am totally blinded by the sun in my eyes  
Are you miserable?  
And I feel I'm the only one who gets this way sometimes  
Are you miserable? Do you get miserable? (x2) Made it back, can I come inside for a change?  
Made of glass, but I'm falling fast other way  
I said it once and I'll say it again Act nice, but my body is falling apart  
Dress rich, but my body is falling apart  
Keep going, but my body is falling apart, apart  
(x2) I wanna travel to the future, uh huh  
And get away Are you miserable?  
Well, I am totally blinded by the sun in my eyes  
Are you miserable?  
And I feel I'm the only one who gets this way sometimes  
Are you miserable? Do you get miserable? (x2)
