

Spaceship Coupe (Sushi Killer Remix)

Justin Timberlake

Hey, yeah, yeah
Hey, I wrote this song for you
ListenEverybody's looking for the fliest thing to say (fliest thing to say)
But I just want to fly (fly away with you, you, you, you)
I don't want to be the one to alienate, yeah (alienate)
You see, I'm trying to find an alien in you (you, you, if it's cool, cool)We can't take an airplane
Where we're going is way to high
Going where the day sky turns into night
I got the windows special tinted for the stars that get too bright
And I saved you a seat, so let's rideHop into my spaceship coupe
There's only room for two (Me and you)
And with the top down
We'll cruise around
Land and make love on the moon
Would you like that?Hop into my spaceship coupe
There's only room for two (Me and you)
And with the top of you wrapped up
In my space lover cocoonAnd I love it when I hear you say
Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohSing to meI love it when I hear you say
Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohSing to meNow everybody knows that you're from outer space (outer space)
But honey, I just want to turn out this space with you (you, you, you, you)
So drive me to your galaxy where I could play, yeah (that milky way)
And sugar I'll take my time
And show you the backseat view, view, if it's cool, coolWe can't take an airplane
Where we're going is way to high
Going where the day sky turns into night
I got the windows special tinted for the stars that get too bright
And I saved you a seat, so let's rideHop into my spaceship coupe
There's only room for two (Me and you)
And with the top down
We'll cruise around
Land and make love on the moonHop into my spaceship coupe
There's only room for two (Me and you)
And with the top of you wrapped up
In my space lover cocoonAnd I love it when I hear you say
Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohSing to meI love it when I hear you say

Ooh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohGo on and sing to meNow break it downHey
This is the part
Where you and me and all of the stars collide tonight
This is the part
We take off
And then we fly far away, far away, far awayHop into my spaceship coupe
There's only room for two (Me and you)
And with the top down
We'll cruise around
Land and make love on the moonHop into my spaceship coupe
There's only room for two (Me and you)
And with the top of you wrapped up
In my space lover cocoonOoh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohOoh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohOoh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohOoh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohBaby, can't you see all the stars?
They shine, they shine
Just for you
I said oh, yeah, yeah
Just hop into my spaceship coupe
I saved a seat for you
Right here next to me
I'm going to take you to the moon
And I'll make you sayOoh, ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh, oohI love it when I hear you say
Ooh, ooh, ooh, ooh, oohAnd you love it when I make you say
Ooh, ooh, ooh, ooh, oohBaby this is the part
Where you and me and all of the stars collide tonight
This is the part
Where we take off
And then we fly far away, far away, far away
