Just the Thing

Meredith O'Connor

I'm awkward
A little OCD
I'm too tall
I always say just the wrong thing
I talk too fast, forget to breathe
Get tripped up in my energy
I'm outta touch and think too much offhand
I'm in the clouds I'll probably never landCHORUS
Am F C g
I don't fit in with the in crowd
AM F C G
But I fit with you
AM F C G
I don't fit in but I like out
AM F C G
You're a little weird too
AM F C G
That's just the thing I like about you x2(Chords Repeat)
I once had
A world of supposed friends
But everyone knows that
Fairweather always endsAnd those who stay to better days
They rarely come along our way
Make me smile and I just gotta sayCHORUS
I don't fit in with the in crowd
But I fit with you
I don't fit in but I like out
You're a little weird too
That's just the thing I like about youBRIDGE
Without you I can hardly see the happiness around me
the company you made i wouldn't trade it for a million bucks
its true u light a spark, without you I'm in the dark
and id never be able to find the light again,
and when you're strange its hard to find someone who stays till the endCHORUS
(repeated)
I don't fit in with the in crowd
But I fit with you
I don't fit in but I like out
You're a little weird too, and you always make me smile, if I've been down for a while and ill show you

everyday that my love wont go away and you lift me off the ground whenever you are around you know you're strange but I'm the same way to and
That's just the thing I like about you just the thing i like about you
