Postcard

Jukebox the Ghost

I don't want you to feel broken
I just want you to feel good
Let's put away all those past indiscretions
Let it go, do you think you could?

I just want you to feel happy
I just want you to be glad
So that every time you wake up
You're not thinking of someone
Who's trying to set you back

Well good idea, good idea, you keep me waiting round
I'll just wait here until you decide to come back to town
You don't call us, alright, you send me a postcard
You send me a postcard
You send me a postcard

Yeah you dream but you have to
Work out the secrets you have
Piercing long to the dream light
Don't tell me, I won't ask

I just want you to feel happy
I just want you to be glad
So that every time you wake up
You're not thinking of someone
Who's trying to set you back

Well good idea, good idea, you keep me waiting round
I'll just wait here until you decide to come back to town
You don't call us, alright, you send me a postcard
You send me a postcard
You send me a postcard

I lost the love without the dream light it is killing me
I can't be next to you and not think about what you're thinking
So I just hang on your words and read between the lines
Cause you send me a postcard
You send me a postcard

Good idea, good idea, you keep me waiting round
I'll just wait here until you decide to come back to town
Good idea, good idea, just give me a shout
Oh I don't mind as long as you keep coming back around
You don't call us, alright, you send me a postcard
You send me a postcard
You send me a postcard
