When You're Ready

Kate Earl

I'll wait patiently
When the world
You're caught up in fades
Come to me
And you know I'm not holding my breath
But you know how to find me
And you know there's a knot in my chest
Only you can untie me
When you're ready for love
Cause you know along
I'm the one that you wanted baby
All your reasons are wrong
Now I know why you run
And I'm not leaving
Before I got that you're just lost
I used to think that I wasn't enough
When you're ready for love
Cause you know all along
I'm the one that you want baby
You're sane, safe with me
I hope that i've
Shown you enough to believe
And you know I'm not holding my breath
But you know how to find me
And you know there's a knot
In my chest only you can untie me
When you're ready for love
Cause you know along
I'm the one that you wanted baby
All your reasons are wrong
Now I know why you run
And I'm not leaving
Before I got that you're just lost
I used to think that I wasn't enough
When you're ready for love
Cause you know all along
I'm the one that you want baby
It's never too late to put the past away
It's never too late to quit the masquerade
