Dancing On The Moon

Ash

(hamilton)I...
So full of confidence before...
I'm scared to sing in the shower
But now I'm singing to you
You...
You just appeared from out of nowhere
You picked when I was low, and..
Shot me up into the atmosphereHey
Look at me, dancing on the moon
I got a girl so sweet, she got me back in tune, yeah
Now I'm floating, floating about in the moonUp, up, and away
I've got a good feeling
I'm feeling out of it, believe me..
It's gonna stay with me always
Let's go, we'll go swimming in the starlight
Diving down to unite
Take me further than I've ever been beforeLook at me, dancing on the moon
I got a girl so sweet
She got me back in tune, yeah
Now I'm floating, floating about in the moonAll right.....
(drums)Look at me, dancing on the moon
I got a girl so sweet, she got me back in tune, yeah
Now I'm floating, floating about in the moonBaby, you're the one for me
You've got a smile that shines
A smile I thought was mine, yeah
Keep it flowing,
Baby keep it falling
Fall further, floating on to heaven
Keep it floating, floating about in the moon.
