

Don't Forget Your Hat

Mark Knopfler

Well, look out the window
Never saw so much rain
You better get down to the station
If you want to catch that train
So long, I guess that's that
Hey, hey, don't forget your hat Well, you don't call the action
You don't make the rules
You don't pay the piper
You don't even pay the fuel
So long, I guess that's that
Hey, hey, don't forget your hat Well, it's a big old world out there
Go get it if you can
You got a ways to go
Before you get to be a man
So long, I guess that's that
Hey, hey, don't forget your hat
