Something More

Bonnie Dune

I'll save you from your dreams
Every night I'll pull you out of sleepI loved you from the start
But I don't know
What I'm looking forI want something more than this
I want something more than thisSo we dance away the days
Looking for the rest of you and me
And you say you can't breathe
Every time you think you're losing meI loved you from the start
But I don't know
What I'm looking forI want something more than this
I want something more than this
Something more than
What I know
Cause I'm breaking
Don't let go
Cause I need you close to me
I need
Something more than this
Something more than this
More than this
