

# Shovel

[Katie Herzig](#)

Hearts bend cause they cant break  
When they cant take  
All that is given to them Glass eyes on your sad face  
Its a sad story somebodys written on you  
Love in my heart, right from the start  
So please take me with you Birds sing out the window  
Sing out the window sing  
Do you hear those birds  
sing out the window  
Sing out the window sing Take me with your shovel  
Well burry all your troubles  
All your troubles
