

Shovel

[Katie Herzig](#)

Hearts bend cause they cant break
When they cant take
All that is given to them Glass eyes on your sad face
Its a sad story somebodys written on you
Love in my heart, right from the start
So please take me with you Birds sing out the window
Sing out the window sing
Do you hear those birds
sing out the window
Sing out the window sing Take me with your shovel
Well burry all your troubles
All your troubles
