

# Lost & Found

## Parabelle

This is where it comes down

This is where we lay

This is where the past

Comes back to haunt me

But I will let the flies out

I will make you scream

I will let the shapes shift

Right back to me

If all you know

Has never failed

-----

So lost and found

If we walk we can try just to fool the sunrise

I swear

I was fooled by the look by the shape of your eyes

So burn

Just let me fall

I can never say the words at all

I'm lost

You're found

And I thought you could carry us

-----

This is where it crumbles

This is where I lead

This is where the shape shifts right back to me

If all you want is to be always mine

If that's all you meant

You never said it aloud

[Chorus]

Free yourself from the fire

Let it go

Let it go

We're so lost and found

[Chorus]
