

Past in Present

Feist

The scarlet letter isn't black
Gotta know who's got your back
Because they're right in front of you
Because they're telling you the truth So much present
Inside my present
Inside my present
So so much past Inside my present
Inside my present
Inside my present so so Feeling it too dark to bright
When a wrong becomes a right
Oh when a mountain fills with light
It's a volcano, it's a volcano
It's a volcano, it's a volcano And so much present
Inside my present
Inside my present
And so so much past Inside my present
Inside my present
Inside my present
And so so much past Inside my present
Inside my present
Inside my present
So so much past Inside my present
Inside my present
Inside my present
And so so
