

There Is a Wind

The Album Leaf

Running so far ahead
Just to get back to the end
There is something in our way
There is something I can't say There's a wind behind everyone
It takes us through our lives
I wish I could have stayed
But this wind takes me away, away, away One day we began
To fly again
And now we start
To fly and then Running so far ahead
Just to get back to the end
There is something in our way
There is something we can't say There's a wind behind everyone
It takes us through our lives
I wish we could have stayed
But this wind takes us away, away, away Oh, where do we go in these days?
Oh, where will we land?
Oh, where do we go in these days?
Oh, where will we land? Running so far ahead
Just to get back to the end
