There Is a Wind

The Album Leaf

Running so far ahead

Just to get back to the end

There is something in our way

There is something I can't sayThere's a wind behind everyone

It takes us through our lives

I wish I could have stayed

But this wind takes me away, away, awayOne day we began

To fly again

And now we start

To fly and thenRunning so far ahead
Just to get back to the end
There is something in our way

There is something we can't sayThere's a wind behind everyone
It takes us through our lives
I wish we could have stayed

But this wind takes us away, away, awayOh, where do we go in these days? Oh, where will we land?

Oh, where do we go in these days?
Oh, where will we land?Running so far ahead
Just to get back to the end
