

Mystery

J Boog

VERSE 1

Never knew a girl that made me feel the way you do
I remember talking it up until the morning dew and,
Never knew that this could get so far
Love to lick it up from the top back a yard
Can't get over all the little things that you do
That special kind of rubbin' make me wind up the mood
Whoa girl you done did it now
Bout to flip it up and break your body down

CHORUS

My baby she's a mystery,
She only love me when she's tipsy,
When we sipping on Tennessee whisky
That's the only time that I feel like she miss me
And when she sober again she a diss me
Sober, acting like she don't wanna come over
Pulling in me driveway in da Rover
Driving me so crazy like a chauffeur
Then she stop in town every time me show on
Thought I was in love until she came up on the scene
Now infatuations got me feeling' like a fiend
Stayin' up late waiting all night long,
Can't wait to see your face walking through my door
Now what the hell is up there's a change in your attitude
Need some serious help and sign up for council too boy
Hopefully the storm gets calm

Sirens wail out, better head for cover run

CHORUS

VERSE 3

Now she back in love and we wavin' our crystal glass
She say you with me forever don't know if it'll last, ohh
No other niggas spoiling the mood
Make sure I have plenty liquids keep her feeling cool.
But (doobie and the bottle?) is getting empty by the ounce
Slowly sobering up and the buzz is going down now
Knew that it would come to this time
Fully recovered saying the same old line

CHORUS (x2)
