

Bullet in the Gun

[Jimi Jamison](#)

The hands of time they won't slow down. Every minute every second counts.
Break away and break new ground and get everything you dream about.oh oh oh ohThere's a bullet in the gun
that bullet's just for you. Can you feel it your time is running out.
You won't get a second chance everything is in your hands. That bullet in the gun is just for you. Just for
you.Interstates and gravel roads brother you may hit the motherlode.
Who knows what the future holds when your time is up you've got to go.Oh.There's a bullet in the gun that
bullet's just for you. Can you feel it your time is running out.
You won't get a second chance everything is in your hands.
That bullet in the gun is just for you. Just for you.There's a bullet in the fun that bullet's just for you. Can you
feel it you time is running out.
You won't get a second chance everything is in your hands.
That bullet in the gun is just for you.
You won't get a second chance everything is in your hands.
That bullet in the gun is just for you. It's just for you.
That bullet in the gun.
That bullet in the gun.
That bullet in the gun.
That bullet in the gun.
