You've Seen the Butcher

Deftones

Don't wanna take it slow
I wanna take you home
And watch the world explode
From underneath your glowI wanna watch the way
You creep across my skullYou slowly enter
'Cause you know my room
And then you crawl your knees off
Before you shake my tombI wanna watch you close
I need to see for sure
And then the tape is on
Who do you think we could show?I wanna watch the way
You creep across my skullYou slowly enter
'Cause you know my room
And then you crawl your knees off
And then you shake my tombI wanna watch the way
You creep across my skullYou slowly enter
'Cause you know my room
And then you crawl your knees off
Before you shake my tombYou enter slowly
You know my room
You crawl your knees off
And then you shake my tomb
