

# Wish Me Luck

## Chuck Prophet

Wish Me Luck  
(Prophet, klipshutz, DePrato)My life is an experiment  
That doesn't prove a thing  
I wake up every morning  
Wondering what the day will bringThen I throw open the windows  
And fill up both his lungs  
And I shout, "Look out all you losers  
Here I come"Wish me luck  
Even if you don't mean it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anywayNow I've harvested your cannabis  
Down the Yucatan  
In fact, I slept beside a Catholic priest one time  
In Henry Rollins's vanI've marched in your parades  
And I've fought your late night wars  
But in my father's house  
There are no doorsWish me luck  
Even though I don't need it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anywayNow watch me dance upon a wire  
Watch me dangle from a string  
Shinning like a diamond in the sun  
Shinning like a diamond  
Shinning like a diamond  
Shinning like a diamond in the sunWish me luck  
Even if you don't mean it  
Wish me luck  
If it's not too much to ask  
Wish me luck  
It's not like I really need it  
It just feels so good to hear it anyway
