Say

The Send

Tell me you'll wait outside while the sky is pouring gray
Tell me you'll need to relieve yourself of me as well
Help me to feel unashamed as I hang you up to dry
Try to believe that I need some time not someone elseRight now I can't control me
I don't wanna be the one that's holding
But fine if you would wait this outSay to me you'll wait there forever
And never leave our love behind
Say, oh say you'll wait there, you'll be there
'Cause some day, love, I'll make you mine
Someday make you mineAnd tell me you'll be alright if I put you on a shelf
Tell me that you need to wait for me, not someone elseRight now I can't control me
I don't wanna be the one that's holding
But fine if you would wait this outSay to me you'll wait there forever
And never leave our love behind
Say, oh say you'll wait there, you'll be there
'Cause some day, love, I'll make you mine
Someday make you mineAnd tell me you'll wait outside
Tell me you'll wait outsideRight now I can't control me
I don't wanna be the one that's holding
But fine if you would wait this outAnd say to me you'll wait there forever
And never leave our love behind
Say, oh say you'll wait there, you'll be there
'Cause some day, love, I'll make you mineSomeday, love, I'll make you mine
Someday, love, I'll make you mine
Someday, love, I'll make you mine
Someday make you mine
