Little Doll

The Stooges

Little doll I can't forget
Smoking on a cigarette
In my life a real queen
Prettiest thing I ever seen
Uh-huh
You're the one who makes me sing
Bring happiness and everything
You're the only real one
A real way to have some fun
Uh- huh
But I don't know you little doll
I don't know you little doll
Come on shake
Come on shake
Come on shake you little doll
Shake you little doll
Come on...shake
Come on shake
Shake you little doll
