

# Blue Turning Grey Over You

## Louis Armstrong & His All Stars

Gee, how I miss  
Your tender kiss  
And the wonderful things we would do Now I run my hands  
Through silvery strands •  
You left me blue turning grey over you You used to be  
So good to me •  
That's when I was a novelty  
Now, you've new friends in view  
You've found someone new  
And left me blue turning grey over you
