

Lucky Us

Crown the Empire

Are you hanging on my words tonight?
Don't you get it?
Don't you get it?
Hold your breath and everything's just fine
Don't you get it?
God and me can be alone, if you waste away, waste away
If there's a love that brings us home
It drowned today We smile and grind our teeth away
Good luck forgot to call our names
Good God
Lucky us, lucky us, lucky us No-one's hanging on our words tonight?
Don't you get it?
Don't you get it?
You can try but you won't change their minds
Don't forget it Burned in the sun
The fire (?) become
You pay the price when you pray
You'll see, you'll see
Tell me who you wanna be, tell me what you wanna see We smile and grind our teeth away
Good luck forgot to call our names
Good God
Tortured but no-one leads the way
Force-fed like rats inside a maze
Good God
Lucky us, lucky us, lucky us Are you hanging on my words tonight?
Don't you get it?
Don't you get it?
Hold your breath and everything's just fine
Don't you get it?
Don't you get it? We smile and grind our teeth away
Good luck forgot to call our names
Good God
Tortured but no-one leads the way
Force-fed like rats inside a maze
Good God
Lucky us, lucky us, lucky us
Lucky us, lucky us, lucky us
